

There is no more intimate place to eat than your own home, where you can be at ease with the people you care about and enjoy.

Let us help you indulge in a unique and sumptuous dining experience in the comfort and privacy of your home.

Share with us the details of your dream meal including type of cuisine, preferences and intolerances/dislikes, and we develop a menu and pricing based on your preferences and chosen menu.

Our chef will design menus based solely on your wishes and can accommodate vegetarian and vegan options, as desired.

We cater a fully plated dining experience for events up to **12** guests. For events greater than **7** people, a server is required.

Set-up, table service and cleanup is included in our fee.

Our goal is to seamlessly craft an elegant and relaxing evening for you and your special guests. Let us do all the work while you marinate in an evening of savoury foods and relaxing fun with your guests.
